A NEW DEPARTURE.

A NEW DEPARTURE.

The married ladies of the "Willing Workers" society of the presbyterian church of this city purpose chertaining all the ladies of the congregation in the school room of the church on Thursday evening next. The reason for neglecting to invite any gentlemen has not been divided; but it is suspected that the hadies have had something of this kind in view ever since Miss Agnes Knox read the "piners." If this re union should devel poen too a ladies' club it would not be surprising to many. The guests will be allowed to bring their kutting work if they choose; and the committee will take care that no "irritatin" reflections will be east on the slow workers. This will reduce that how the surprising to many. The guests was a constant of the slow workers. This will reduce that how the slow workers. This will reduce the del saving that it is only lazy people who take their work away from home. The intervals between the selections on the programme are to be of rather lengthy duration, to allow of picking up lost stacks, and the thread of concrestion. It is neither necessary nor desirable for the ladies to wear their best dresses, as this is an experiment, and accidents may happen to hot coffee pitchers in the best regulated assemblies, when the waiters are not well accustomed to the handling of them. The guests are expected to arrive early for the well-known reasongiven by Jossiah Allen's Wife. As the ladies do not care to break up a pleasant evening, and the new moon sets early, escorts may call at 10 or 10.39. Heads of families are expected to romain at home and take good care of the children, have the house look cheerful, and the kettle boding for hot lenomade. If these directions are carried out to the letter, there need be no fear of and serious results following this musual dissipation.

I have a ward Green next issue.

Lated we and Green are now kept very say putting the different manufacturing datas in werking order. They put a simplete sett of new tubes in the Bran lon planning mill, also a 17 jungitater to upply water for the bodier from the river.

We are glad to hear that the difficulties have been settled regarding the proposed aminegal bracke at Mexander and that he work will go on forthwith. This will be welcome news to those who have difficulty in crossing the river for the pass gold years.

Mr. George Davidson, head clerk in the Post office, having resigned that postion, Master J. Lesperance takes that of Mr. Johnson. Mr. 8, Baker, the new levik will begin at the lower round of the header, and work his way upward in the lepartment.

While Mr. Amett was moving from the roth to the south side of his torrace when the total the south side of his torrace when men he work will seen and proposed and adoption of the total to the south side of his torrace when men he work was completed an adoption of the north to the south side of his torrace when men he work was completed an adoption of the north to the south side of his torrace when men are now being organized throughout this province and will soon have lodges in every quarter of it.

COLLEGE GAZETTE.

A certain young gentleman in this vicmity was in the bush cutting wood last
week. It is supposed he either took his
foot for a stick or that wood was rather
scarce, or he wanted to get out of spring
work, for he cut his foot, nearly taking
his toe off.
The scholars of "Humota School" are
not afraid of rain or a storm of any kind,
judging from the manner in which they
turn out on such occasions, the teacher
thereby running no chance of a holiday.
There is to be a picnic at Wheatlands
on the 23rd of May, in aid of time
for the world of the building fund of the new church at Wheatland.
Our "Hamiota Poet" has stopped coming to school for the summer months.
We hope he will still continue to contribute towards our paper.

Many of the farmers in this viemity
have condenned blue-stone for pickling
wheat, most of them patting it in withour picking.

STORE.

Mr. W. H. Irwin protographer made a large picture from a little turtype photo of the first general store in Brandon having the sign over the door Comb& Stewart, It is a little 12x12 sharty which was built and completed in halfa dayand contained everything from soap up toox harness. The junior partner of the firm stands in the door with his shirt sleeves rolled up and a slouch hat on while aslim and youthful individual now the noted M. P. for Selkirk, stands behind a shaganappe pony to the right. CaptainWastican be seen on a roof in the rear of the building painting a sign in large capital letters advertising his Livery Stable. Truly this is a progressive country. And when we get our new city hall and water works we can look back on the summer of 1881 and on this picture will then the same of the lines have fallen to us in pleasar places and we have a goodly heritage.
